ŞEHİT MEHMET ARIYEŞİL PRİMARY SCHOOL

E-SAFETY POLİCY

E-safety policies are seriously needed in schools since every user could easily acess internet. We live in a world that in every minute there is technology. We should be sure that our children has the knowledge to use the opportunities that they have by technology. To be sure of that we should raise awareness about e-safety policies.

RULES

- E-safety is the responsibility of every teacher in the school but to be applied and supervised a leader is needed. This person is e-safety coordinator and is responsible for applying, monitoring and auditing school e-safety policy. The supervisor is in charge of reporting to school e-safety comitee and school management at least oncea year.

- School e-safety policies should be compatible to new developments anad trends.

- The reach of school e-safety policy should be set by presentations and seminars. By this way school satff, students and parents can be informed about the boundries of e-safety.

- E-safety policy should encourage students to use online technogies consciously, also should be solid and consistent.

- School e-safety policy should overlap with laws and school rules.

- When setting school e-safety policy, to encourage the users they should be involved in every step.

- School e-safety policy should be clear to be easily understood by everybody.
